BROADLOOM + MODULAR

Life & Style COLLECTION

Rugged Beauty for a Lifetime

Influenced by the evolution of living spaces in multi-unit commercial settings, **LIFE & STYLE** embraces the versatilities of high performance carpet tile and broadloom to create a seven style collection. The result is a collection of contemporary organic elements juxtaposed with soft geometrics to create a balance between masculine and feminine design elements.

Life & Style COLLECTION

Function Meets Fashion

With more communities showing interest in using carpet tile in some areas with broadloom in other areas, this collection features the functionality of three tile and four broadloom styles.

Life & Style COLLECTION

Flexible Living

Use the carpet tile to define space and create easy wayfinding cues or area rug effects. Bohemian offers a large scale broadloom pattern that can also be used as an asymmetrical corridor option.

Life & Style COLLECTION

Performance that Pops

The **LIFE & STYLE** collection is designed to be beautifully durable, using Solution Q Extreme®, our highest performing fiber that repels acid based stains and can be cleaned with just water. The tile is backed with Ecoworx high performance tile backing. The broadloom features EcoWorx Performance Broadloom backing (EPBL) offering moisture barrier backing. Even if the residents don't require this backing....it is ideal in a residential setting for pets or children. The entire collection has severe and heavy TARR ratings so all products can be used with confidence in the heavy traffic areas. Like all of our carpet products, it's Cradle to Cradle certified.
